

JCamps COVID Protocol

Effective March 28, 2022

This policy may be subject to change.

Updated Mask Policy

Masks are optional for children and adults. We follow CDC guidance in encouraging all people who are high-risk or who are in regular contact with someone who is high-risk to wear a mask. We will support all families who request that their child continue to wear a mask at camp.

- Please note that there will be mask requirements as part of our COVID exposure procedures.

COVID-19 Positive Case Protocols

Staff and children regardless of vaccination status

1. Notify the JCamps Office.
2. Stay home for 5 days.
3. Test on day 5.
4. If you have no symptoms, and test negative, you can return to camp on day 6.
5. Wear a mask while indoors around others for 5 additional days.
6. If you choose not to test, then you may return to school symptom-free after 10 days.

On-campus Exposure Protocols

Staff and children regardless of vaccination status

You will be notified if there is a COVID exposure that affects your child's program. If your child is asymptomatic, you may choose one of the following options.

Option 1 Test to return the next day (masked) AND test again on Day 5.

Your child must be asymptomatic, regardless of test result, to return to campus.

Option 2 Quarantine at home AND test on or after Day 5 of exposure. Return to campus on Day 6.

Your child must be asymptomatic, regardless of test result, to return to campus.

Option 3 Quarantine for 10 days and return on Day 11, without a test, if asymptomatic.

Household Exposure Protocols

For vaccinated students and staff

1. Notify the JCamps Office.
2. Test to return the next day.
3. Wear a mask while indoors for 10 days.
4. Get tested on Day 5.
5. If you develop symptoms get tested and stay home.

For unvaccinated students

1. Notify the JCamps Office.
2. Stay home for 5 days and get tested on Day 5.
3. If asymptomatic, return to school on Day 6.
4. Wear a mask while indoors for 5 additional days.
5. If you develop symptoms get tested and stay home.

TESTING INSTRUCTIONS

Required for all COVID-19 exposures and positive cases

PCR tests are highly recommended. At home antigen tests may be used. (If you have a confirmed COVID-19 positive case within the past 10 days, you must use an antigen test.)

If as part of your protocol, you are required to test, you must follow the following procedures:

1. Get tested. You will need separate tests for each day as outlined above. (Choose either option a or b)
 - a. At home test – follow the instructions carefully.
On the test cartridge, write your child's full name, date of test, and name of Group/Bunk/Camp. Take a picture.
 - b. Go to a testing center.
2. Email results, with the required information, to the JCamps Office, at least 3 hours prior to the start of the camp day.

COVID protocol update: June 20, 2022

This update is for on-campus exposures ONLY, all other protocols remain the same as stated above.

Positive on-campus exposures:

- Families will be notified of a COVID exposure that impacts their bunk and/or PM Care bunk.
- It is recommended that parents submit a negative COVID test for their affected camper on Day 1.
- **Masking through Day 5 is required.**
- **Parents are required to submit a negative COVID test on Day 5 in order for their camper to return for camp for Day 6.**

As always, please test your camper if they are displaying any COVID symptoms. If your camper tests positive for COVID, **you must email us** at jcamps@shalomaustin.org. Staff will continue to be monitored by the JCamps team.

In lieu of camp wide weekly emails, parents of impacted bunks will be contacted. If at any time you would like a camp COVID update, please email us at jcamps@shalomaustin.org.
